DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by JP 2002006049 (Canon Inc.). The Japanese Patent Application (Canon Inc.) discloses an portable X-Ray Imaging Device comprising: an x-ray imaging device is enclosed within a housing structure, an electronic circuit for monitoring conditions and processing electric signal and regulating cooling unit temperature by operating the blower and supplying air current into the enclosure (see figure).

Allowable Subject Matter

Claims 16-26 are allowed over the prior art of record.

Claims 2-15 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments with respect to claims 1-26 have been considered but are moot in view of the new ground(s) of rejection.
